

Voluntary Position – TREC GB Young Rider Team Chef d' Equipe

On behalf of TREC GB, the International Riders' Working Group (IRWG) is seeking to appoint a Young Rider Chef d' Equipe.

Expressions of interest should be emailed to Cheryl Wilson (IRWG YR Representative) at chezwil@gmail.com in the first instance.

Closing date for applications is 15th December 2017.

Context

The TREC GB Senior Team Chef d' Equipe was appointed in March 2016 prior to the World Championships. The intention is that a common policy covers both Senior and Young Rider Chef selection processes. Senior and Young Rider Chef's will be selected to fulfil the role for a two-year period. This would cover one main international Championship for the Senior Chef and two European Championships for the YR Chef.

Selection will be staggered so that there will never be two completely new Chefs in post at any one time. To this end, YR Chef Selection is scheduled now and the successful candidate will remain in post for the International Championships of 2018 and 2019. Senior Chef Selection will occur after the 2018 European Championships and the successful candidate will be in post for 2019/2020.

The incumbent Chef's (both Senior & YR) will automatically be put forward for 'selection' for the following two-year period, unless they specifically express a desire not to be.

Appointment of the Young Rider Chef will be carried out by a formal group consisting of: one internationally experienced Young Rider (who will be expected to liaise with their peers before the final selection process occurs); the Chair of the IRWG; the Young Rider Representative on the IRWG and one other member of the IRWG (person to be confirmed). In the event of a 'tied vote' the Chair of the IRWG will have the casting vote.

The successful applicant will be informed by 30th January 2018.

Job Description - TREC GB Young Rider Chef d'Equipe

TREC GB is seeking to appoint a suitable person to undertake the voluntary position of TREC GB Young Rider Team Chef d'Equipe (Team Manager).
